Oregon Multidisciplinary Training Program in Emergency Medicine Clinical Research

Oregon Health & Science University is recruiting scholars for a 2 to 3-year research career development program funded by the National Heart, Lung and Blood Institute of the NIH (grant #1K12HL108974).

Research interests must focus on Emergency Medicine; however, scholars may come from a variety of clinical backgrounds, including:

- Emergency Medicine
- Cardiology
- Hematology
- Trauma Surgery
- Pediatrics
- Nursing
- Pharmacy
- And others

Scholars must meet the standards for appointment at the Assistant Professor level or higher. They will receive 75% protected time to conduct their research, plus funds for travel, tuition, and research expenses.

Three Pillars of the OHSU Program

- A mentored research experience
  - Diverse portfolio of research opportunities, from bench to bedside to policy, working with over 33 senior investigators from 18 Schools, Departments, Divisions, Centers, and Institutes within OHSU
- A didactic program resulting in a Master of Clinical Research (MCR)
  - Scholars with an MCR or similar degree will have a didactic program tailored to their individual needs
- A tailored faculty development experience

Human Investigation Program (HIP) and Master of Clinical Research (MCR)

The HIP and MCR offer an integrated clinical and translational research curriculum with a ten-year reputation for training extraordinary clinician-scientists. Trainees have a strong track record of securing mentored career development (individual K) awards and subsequent R01 funding.

Research at OHSU

OHSU ranks in the top 25 of all academic health centers nationally in federal research funding dollars.

- Focus on interdisciplinary research collaborations
- Commitment to community partnerships in research and public health
- One of the first Clinical and Translational Science Award recipients
- More than 4,100 projects currently underway
- An incubator of discovery, averaging one new breakthrough or innovation every three days

OHSU Department of Emergency Medicine

- Consistently ranks in the top 5–10 nationally in federal funding
- Hosts a well-established Emergency Medicine Research Fellowship
- Home to the OHSU Center for Policy and Research in Emergency Medicine (CPR-EM)
- Major role in multi-center collaborative studies
